

BIBLIOTECA

Prof. Dr. Sérgio Rodrigues Fontes

ENGINEERING VILLAGE

Andreto CG, Fialho L, Monteiro M, Ribeiro TP, Fernandes L, Barros J, Monteiro FJ, Carvalho S, Salomão R. **Biological activity of mullite macrospheres for bone tissue regeneration** [Internet]. Journal of Materials Research and Technology. 2026 ; 40 2278-2290. Available from: <https://dx.doi.org/10.1016/j.jmrt.2025.12.307>

Encinas Riveros JA, Oliveira CG da R de, Rondon G da SP, Encinas Riveros CF, Oliveira LC de, London Junior JBA. **Three-phase state estimator using dependent weighted least squares** [Internet]. 2025 ; Available from: <http://dx.doi.org/10.1109/PowerTech59965.2025.11180435>

Klug AB, Nardo RC, Faxina AL. **Fatigue performance of asphalt mixtures prepared with RAP and recycling agents: a study at the fine aggregate matrix scale** [Internet]. Journal of Materials in Civil Engineering. 2025 ; 38(3): 1-9. Available from: <http://dx.doi.org/10.1061/JMCEE7.MTENG-21361>

Lira ER de, Silva EA da, Degiorgi SVB, Carmo JPP do, Ando Junior OH. **Design and performance analysis of MPPT algorithms applied to multistring thermoelectric generator arrays under multiple thermal gradients** [Internet]. Energies. 2025 ; 18(24): 1-26. Available from: <https://dx.doi.org/10.3390/en18246613>

Marinheiro MM, Aguiar GM, Morse RW, Ribatski G, Bucci M. **Phenomenological characterization of heat transfer and boiling crisis in churn liquid-vapor flows using high-resolution diagnostics** [Internet]. International Journal of Multiphase Flow. 2026 ; 196 1-18. Available from: <https://dx.doi.org/10.1016/j.ijmultiphaseflow.2025.105568>

Minari VH, Anoni LG, Haach VG, Molina JC. **Assessing bonding quality and detecting defects in CLT panels using ultrasonic wave propagation analysis** [Internet]. Construction and Building Materials. 2026 ; 505 1-12. Available from: <https://dx.doi.org/10.1016/j.conbuildmat.2025.144789>

Norenberg JP, Varoto PS, Silva S da, Cunha Junior A. **Asymmetry-enhanced performance in bistable energy harvesters: experimental and numerical analysis** [Internet]. Nonlinear Dynamics. 2026 ; 114 1-22. Available from: <http://dx.doi.org/10.1007/s11071-025-11893-8>

Perlin CL, Coda HB. **Analysis of membrane structures by an alternative pseudo-solid positional FEM formulation** [Internet]. Computational Mechanics. 2025 ; 1-18. Available from: <http://dx.doi.org/10.1007/s00466-025-02725-y>

Rodrigues AV, Teixeira GAPA, Sousa SL de, Moreto JA, Wolf W. **Wear-resistant quasicrystalline alloys: progress in Al-based systems for tribological applications** [Internet]. Metallography, Microstructure, and Analysis. 2025 ; 1-18. Available from: <http://dx.doi.org/10.1007/s13632-025-01293-0>

Silva AR da, Machado HR, Santos MV, Caurin GA de P, Camargo CS de. **Adaptation and validation of a collaborative robotic equipment applied to pediatric neurosurgery** [Internet]. Childs nervous system. 2025 ; 41 1-13. Available from: <https://dx.doi.org/10.1007/s00381-025-07006-w>
